**ASSUMPTION OF RISKS - AVALANCHES, ALPINE TERRAIN, WILDERNESS TRAVEL, WEATHER ETC.** I am aware that wilderness skiing and wilderness snowmobiling involves risks, dangers and hazards in addition to those normally associated with downhill skiing or prairie snowmobiling. Avalanches occur frequently in the alpine terrain used for wilderness skiing and wilderness snowmobiling and may be caused by natural forces or by skiers, snowcat or snowmobilers. I acknowledge and accept that the Operators and their staff may fail to predict whether the alpine terrain is safe for skiing or snowmobiling or whether an avalanche may occur. The alpine terrain used for wilderness skiing and wilderness snowmobiling is uncontrolled, unmarked, not inspected and involves many risks, dangers and hazards in addition to that of avalanche. These may include, but are not limited to: ice and snow cornices; trees, tree wells and tree stumps; creeks; rocks; boulders; forest deadfall; holes and depressions on or below the snow surface; cliffs; variable and difficult snow conditions; crevasses; snowcat roads and road banks, fences, and other man-made structures; impact or collision with other skiers or snowmobilers; the failure to ski or snowmobile safely or within one's own ability or within designated areas; negligence of other skiers or snow-mobilers; and **NEGLIGENCE ON THE PART OF THE OPERATORS OR THEIR GUIDES FILM INSTRUCTORS AND EMPLOYEES, INCLUDING THE FAILURE OF THE OPERATORS OR THEIR GUIDES AND EMPLOYEES TO SAFEGUARD OR PROTECT ME FROM THE RISKS, DANGERS AND HAZARDS OF WILDERNESS SKIING AND WILDERNESS SNOWMOBILING.** Skiers or snowmobilers may become lost or separated from their skiing or snowmobiling party or guide. Communication in the alpine terrain is difficult and in the event of an accident, rescue and medical treatment may not be available. Alpine weather conditions may be extreme and can change rapidly and without warning, making travel by helicopter, snowcat or snowmobile hazardous.
